

FOF2020 - POSTPONED

Dear astronomy community:

We share your concerns given the ongoing outbreak of the coronavirus (COVID-19) as a threat to global health.

Therefore, the authorities of our institutions, with our agreement, have decided to postpone the holding of the 10th FoF meeting until the situation is clear enough to decide on a new date of completion. As you know, we have organized this meeting uninterruptedly since 2011 and we would have loved to welcome you in Córdoba.

However, we hope this decision can help safeguard the health of participants, their families and the public, as well as help contain the spread of the virus.

Please let us know if we can collaborate in any way to facilitate the means to mitigate any inconvenience this suspension of the meeting may cause you.

Best wishes,

The Local Organizing Committee of the X FoF meeting
